

Datamax® M-Class

Presenting the M-Class™ *Mark II* thermal printers - the newest from Datamax. The M-Class family are state-of-the-art printers from one of the industry's leaders for over 25 years. Featuring solid die-cast metal construction, a large easy-to-use graphical display and a new small footprint, they are industrial-strength printers well-suited for use in manufacturing, warehousing, healthcare or retail environments.

The M-Class offers the best features and performance in its class:

- Metal Die-Cast construction with an industrial metal cabinet
- Bright, easy-to-read graphical display (display models only)
- Parallel, Serial and USB connectivity
- Advanced IntelliSEAQ™ printhead
- Simple ribbon and media loading
- Clear window in media cover -- easy to view supplies
- 2-Way ribbon feed, uses CSO (Datamax) or CSI (Zebra) ribbons
- 2-year/2-million inch mechanical warranty - best in the industry

The M-Class Mark II thermal printers are the best value in industrial thermal printing. Let Menke show you why.
