

## LASER CUT OILBOARD & MYLAR STENCILS

Our **Laser Cut Stencils** are precision laser engraved in house on either oilboard (.015" thick) or mylar (.014" thick). Because our artwork is computer generated, laser cut stencils can be customized in many ways including: condensing and expanding of text to fit a specific area, curved letters, special arrows, more than one character size on the same stencil, etc. The largest overall stencil we can cut in one piece is 12 x 24"; large character stencils may be furnished in 2 or more pieces.

The minimum order for laser cut stencils is \$25. Prices are PER CHARACTER. Sizes not listed are priced at the rate of the next larger size (2½" is priced as 3", etc). Standard arrows count as 5 characters. Please obtain a quote for curved letters, special logos, etc. Allow 2 to 3 days production time for delivery.

### STENCIL OILBOARD

**Stencil Oilboard** is the best material to use when cutting stencils, either with a machine or by hand. Our stencil board is impregnated with oil to lubricate the stencil machine's cutting dies and prevent absorption of ink. Our oilboard is a "natural" (brown) color.

### STANDARD STENCIL BOARD .015"

Standard Oilboard (.015" thick) is the recommended thickness for most stencil cutters 1/2" and above. We stock four popular cut sizes and jumbo in two sizes.

Pieces or sheets per pound are approximate and may vary. We do not count pieces.

Stencil Oilboard in four cut sizes is sold by the pound or case only. Full cases contain 50 pounds (net).

Jumbo size Stencil Oilboard (11 x 36" and 24 x 36") is sold by the case only - no broken cases!

**MARSH® STENCIL BRUSH**

The **FB-26 Stencil Brush** is a "fountain type" stencil brush. A press on the button feeds ink to the brush tip. Use with Marsh Type K Inks on porous surfaces (corrugate boxes, wood pallets, paper, etc) or Rolmark Ink for all surfaces (porous or non-porous). When the tip wears down, replace it using the **FB-15 Brush Tip**.

**MARSH® FOUNTAIN STENCIL ROLLER**

The **Marsh MFR-30 Stencil Roller** replaces the FR100 and RFR200 Stencil Rollers. The new model may be used with either K1 Black ink or Rollmark Ink. Use K1 ink on porous surfaces (corrugated boxes, wood, etc). Marsh Rollmark Ink can be used on all surfaces, porous and non-porous surfaces. Also available with a 1-1/2" wide roller at the same price (not stocked, allow 1 week).

### MARSH® ROLMARK STENCIL ROLLER

Popular roller stenciling system for all surfaces, porous or non porous. This Pad & Roller System consists of the **RM-20 Roller & Handle** (available in three roller widths) and the **RM-50 Pad**. Ink the pad with Rolmark Ink and keep it fresh with Rolmark Thinner. **The RM-10 Roller** only is a replacement item for the Rolmark handle. All items are sold seperately.

The **MFR-30** is a self-contained fountain roller that is used with all Rolmark Inks. Available in 3" width and 1-1/2" width (from the factory). See Page STENCIL 6 for price.

It is important that only Rolmark inks be used with Rolmark equipment. Use of other inks (even Marsh inks) will ruin this equipment.
